

## Non-spring return damper actuators

### M9300

*(Joventa New non-spring return damper serie)*

*8, 10, 20 and 35 Nm, ON/OFF, floating and proportional control*

The M9300 series electric non-spring return actuators provide control of dampers in HVAC Systems with 8, 10, 20 and 35 Nm rated torque.

These bidirectional actuators do not require a damper linkage and are easily installed on round shafts or square shafts.

An optional line voltage auxiliary switch kits can be field installed to indicate an end-stop position or perform switching functions within the selected rotation range.

### Features
